

Kinship Engagement Unit Training Plan

Here are some questions to consider while reviewing the below trainings:

- How can I apply this information to better understand the families and children/youth I will be working with?
- How can I use this information to my enhance communication with families?
- Are there any ethical scenarios presented in the eLearning that were difficult? How would I handle them? What ethical principles guide your decision-making as a Kinship Engagement Specialist?
- How can I apply what I've learned to improve my cultural competence?
- What skills or knowledge gaps can I identify from the training I need more information about?
- How can I apply what I've learned to my role as a Kinship Engagement Specialist?
